

Under the brand name 'BANOZE,' Banoze Ltd is one of the leading manufacturers and exporters of a wide range of PCR and TBR tires. Its headquarters are in London, England.

All of the products were carefully designed to meet all of the requirements for tires imported to our customers from Europe, Africa, and Latin America; thus, we introduced the 'Drive with European Technology' program to ensure that all of the designs can provide end-users with safety on their journey.

Banoze is a high-end tire manufacturer, so we only use the most cutting-edge design and manufacturing techniques to create our tires. Both high mileage and high tonnage, or just high performance, are acceptable.

Our selection of products is flexible enough to meet any need.

FR SATIO

Banoze Limited

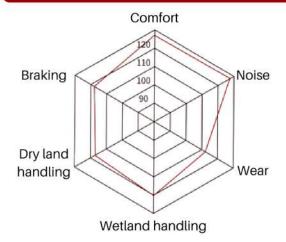

X-ENERGI HP TIRE

Design Features

Performance test

· Criss-cross grooves design

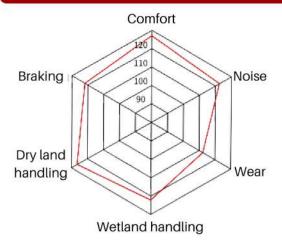

Enhance water evacuation, effectively prevent tire lateral slip on wet road.

· Central wide rib design

Combined with horizontal grooves provides nice stability, excellent acceleration and brake performance at high speed

Product Features

· Asymmetric Tread Design

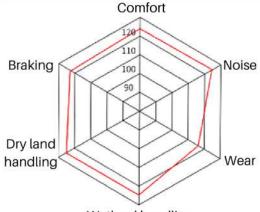

Four wide design provide effective drainage and sufficient wet safety performance

Innovative Technology

Willow leaf-shaped bio-mimetic tread block design. Effectively prevent abnormal wear of pattern block corners. Together with 'S' shaped on tread grooves, bring soft, silence and comfort.

Wetland handling

Drainage

Grip

· Asymmetric Pattern Design

Ensuring better controlling performance of outside while enhancing drainage of inside.

· Innovative technology

Four wide deep grooves keep excellent wetting performance and handling stability.

Pattern Performance

Outside shoulder reinforcement improving handling performance at curve, effectively preventing abnormal wear.

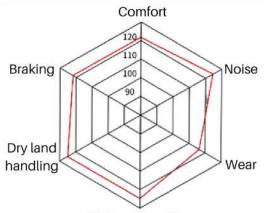

Innovative Grooves Design

Bended steel groove, effectively reducing he noise while enlarging ground contact.

Wetland handling

Drainage

Grip

· Asymmetric Pattern Design

'Flying Wing' large inclination with single guide symmetrical pattern, ensure the tire's super visual speed, drainage, and steering performance.

Pattern performance

Center wide rib ensure the guide performance.

· Innovative technology

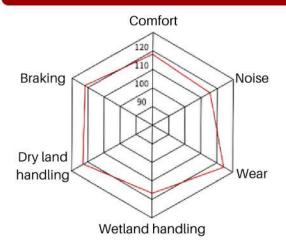

Four criss-cross grooves design, ensure the excellent drainage and handling performance.

Innovative Grooves Design

A wide available groove design avoids air flow, decreases inordinate wear, and increases tire lifetime.

Drainage

Handling

Pattern Performance

Four wide grooves design provide effective drainage and sufficient wet safety performance

· Handling Performance

The compact shoulder design provide excellent handling performance with low noise

Speed Performance

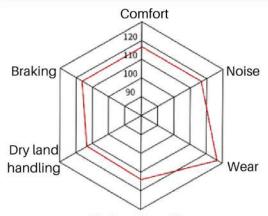

Design of central rib with sipes promotes the rigidity, help to balance high-speed performance and grip performance on wet land.

· Innovative Grooves Design

Multiple blade groove pattern provide excellent handling grip and performance on wet land.

Wetland handling

Pattern Performance

Four wide grooves design provide effective drainage and sufficient wet safety performance

Innovative Grooves Design

Three longitudinal grooves enhance water evacuation.

Grip performance

Special more sipes and grooves design enhances the wet grip performance.

Innovative Design

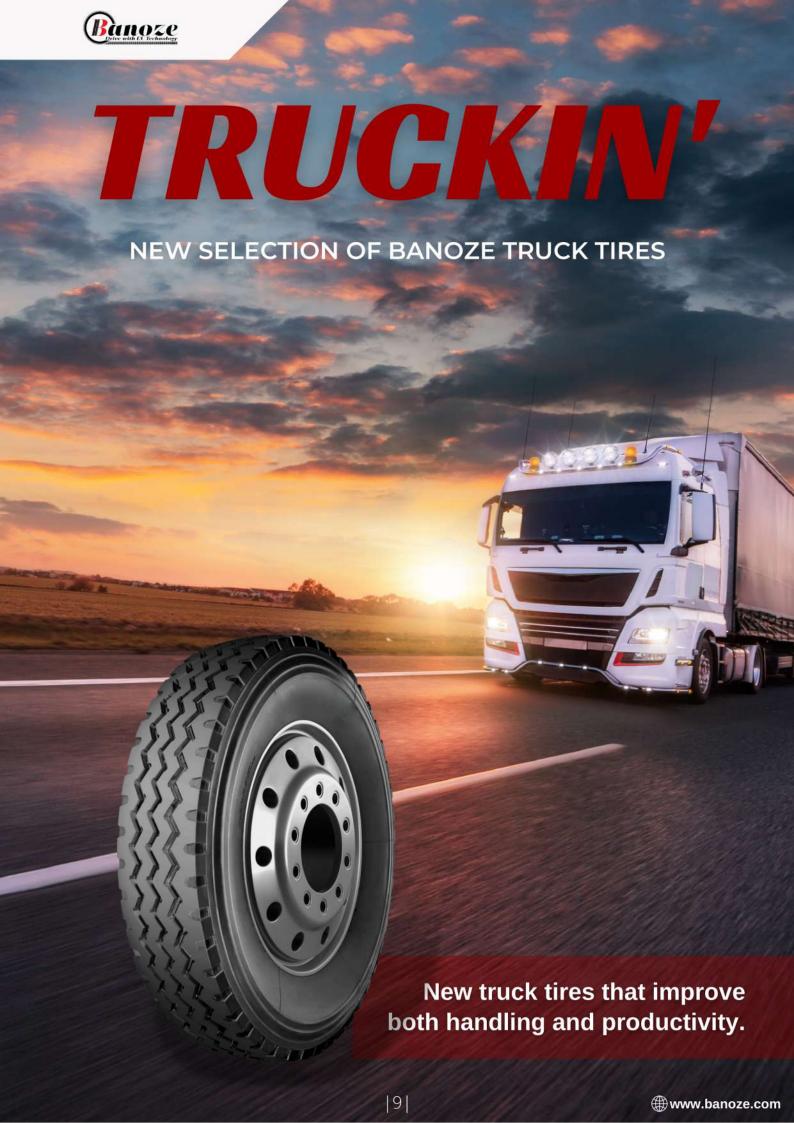

Enhanced shoulder design increases driving stability with high load.
